PROFILE

As a Junior MERN Stack Developer, I am enthusiastic about building dynamic and user-friendly web applications using MongoDB, Express.js, React, and Node.js. With a solid foundation in these technologies and a passion for continuous learning, I am eager to contribute my skills to collaborative development projects. I have hands-on experience with [Online Restaurant](#), [BiyaShadi.com](#), [Car Shop](#), [Food Share](#), where I honed my abilities in real time problem-solving, coding. I am committed to staying abreast of industry trends and best practices to grow as a developer and make meaningful contributions to innovative projects.

WORK EXPERIENCE

As A junior Developer Here is my some of projects

Online Restaurant

- **User-Friendly Interface:**
 - Designed a clean and intuitive user interface for seamless navigation.
 - Implemented responsive design to ensure optimal viewing experience across various devices.
- **Menu Integration:**
 - Integrated an interactive and visually appealing menu, allowing users to easily browse through food and beverage options.
 - Implemented a search and filter functionality for efficient menu exploration.
- **Online Ordering System:**
 - Developed a secure and user-friendly online ordering system for customers.
 - Integrated payment gateways to facilitate smooth transactions.
- **Reservation System:**
 - Implemented a reservation feature for users to book tables online.
 - Integrated automated confirmation emails to enhance the booking process.
- **Dynamic Content Updates:**
 - Established a content management system (CMS) for effortless updating of menu items, prices, and promotions.
 - Implemented real-time updates for special offers, events, and restaurant news.
- **Customer Account Management:**
 - Created a user account system to enhance the customer experience.
 - Enabled users to save favorite orders, track order history, and manage personal information securely.
- **Reviews and Ratings:**
 - Integrated a reviews and ratings system to gather customer feedback.
 - Provided a platform for customers to share their dining experiences and for the restaurant to respond.

SKILLS

Front-end :
React , Tailwind Css

Back-end :
Node Js (Express)

DataBase :
MongoDB(No Sql)
