PROFILE

As a Junior MERN Stack Developer, I am enthusiastic about building dynamic and user-friendly web applications using MongoDB, Express.js, React, and Node.js. With a solid foundation in these technologies and a passion for continuous learning, I am eager to contribute my skills to collaborative development projects. I have hands-on experience with Online Restaurant , BiyaShadi.com , Car Shop, Food Share, where I honed my abilities in real time problem-solving, coding. I am committed to staying abreast of industry trends and best practices to grow as a developer and make meaningful contributions to innovative projects.

WORK EXPERIENCE

As A junior Developer Here is my some of projects

Online Restaurant

Designed a clean and intuitive user interface for seamless navigation. Implemented responsive design to ensure optimal viewing experience across various devices. Integrated an interactive and visually appealing menu, allowing users to easily browse through food and beverage options.
